

Last year we initiated the **Lake Walk** track during Global Impact. This is a condensed version of our **Called To Serve** program that has been designed for students who:

- (1) Feel called to missions or ministry
- (2) Are interested in missions or ministry and are wondering what it might look like to go into ministry
- (3) Think they may be called into ministry or missions, but just aren't sure

If this sounds like any of the students you are bringing to the event please mark on their registrations or contact us to let us know to put them in this track during the service project time. Please note, these students will be staying on site at the church while the remainder of your group goes to the site you have been assigned to. *If you have any leaders that can stay on site please let us know before hand also, but this is not a requirement.*

In this track your students will be talking about building COMMUNITY with their peers who sense a similar calling, they will talk more about CALLING and what that means, and they will also touch upon the topic of CHARACTER.
